

Miniature Ice Skating Rink

Make a miniature ice skating rink with a shoebox, paperclips, and refrigerator magnets!

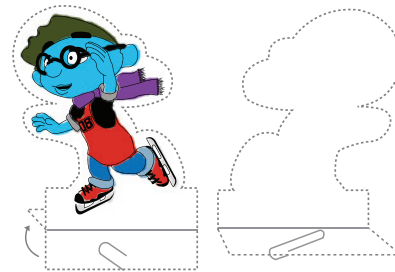

You will need

- » Crayons
- » 4 Magnets
- » NetSartz skaters and rink designs
- » 4 Paperclips
- » Scissors
- » Shoebox or other box made of thin, sturdy cardboard
- » Your trusted adult!

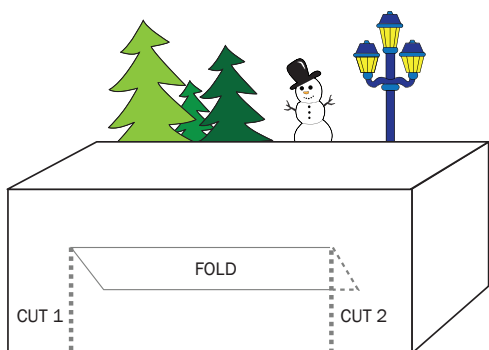

Instructions

1 Color and cut out the NetSartz skaters and rink designs.

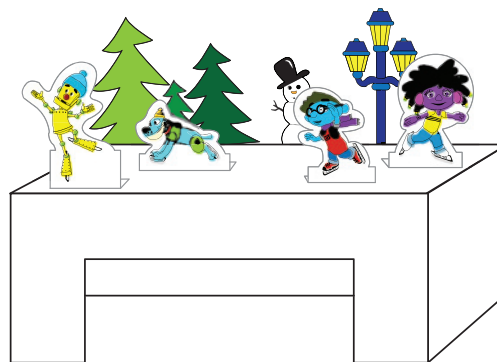

2 Fold and crease each skater's tab. Slide a paperclip over the tab.

3 Place the shoebox on a table with the open side facing down.

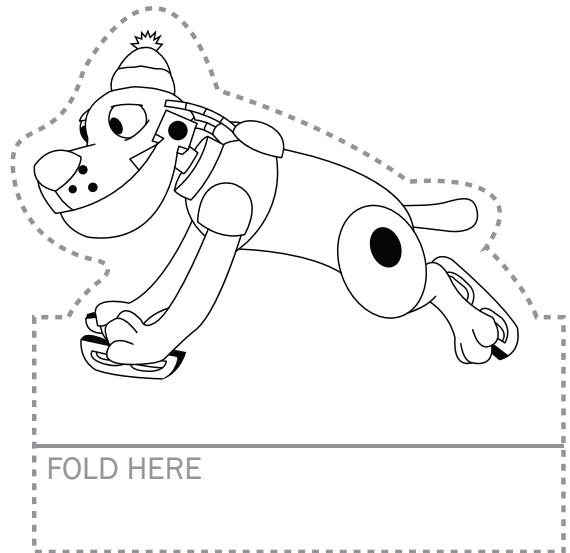

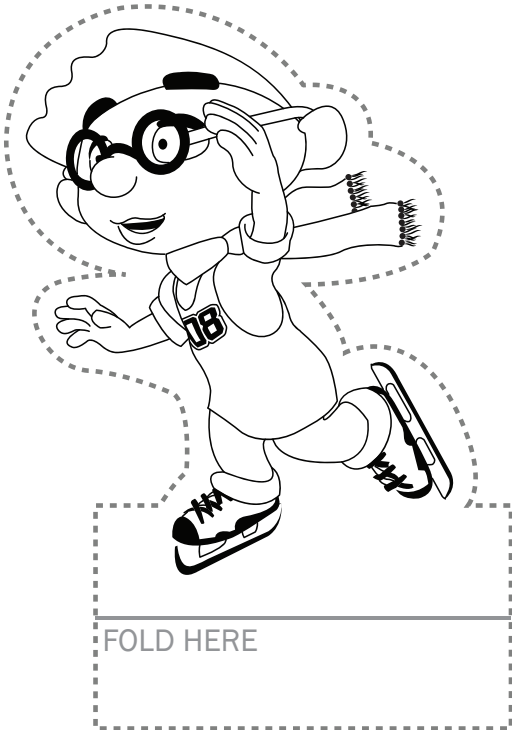

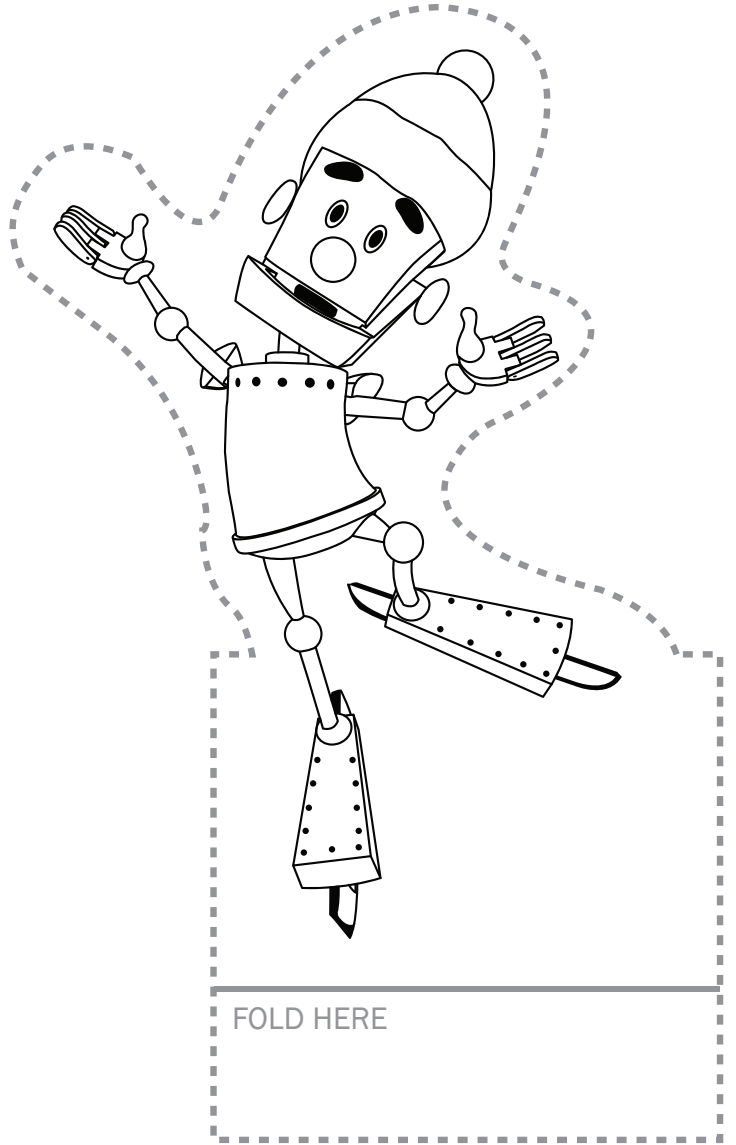

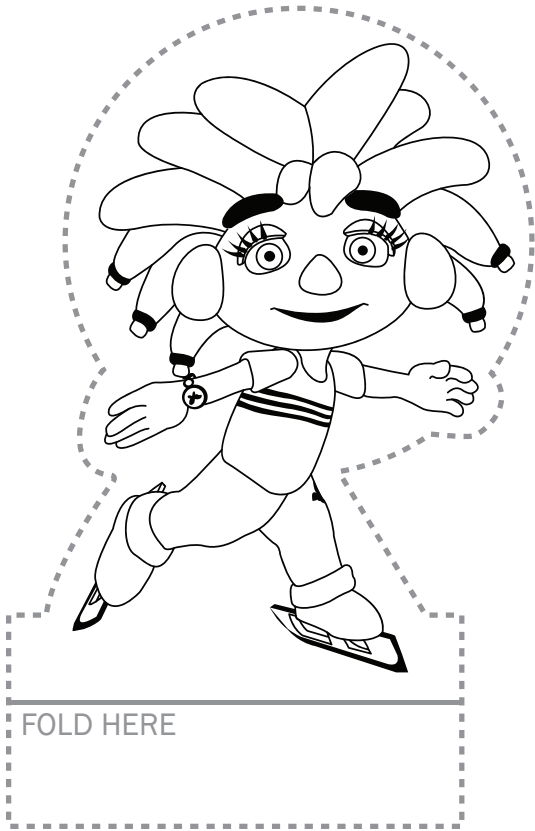

4 Glue the rink designs to one side of the box. The printed side should face you.

5 With your trusted adult's help, make two cuts on the other side of the box and fold the flap in between, creating a space large enough for your hand to fit through.

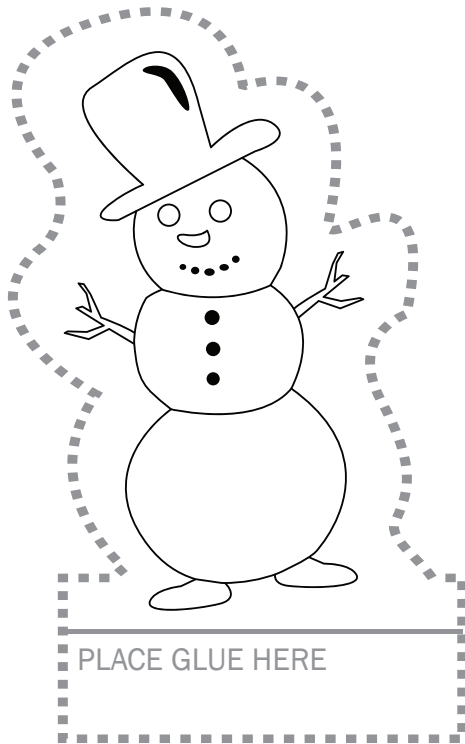

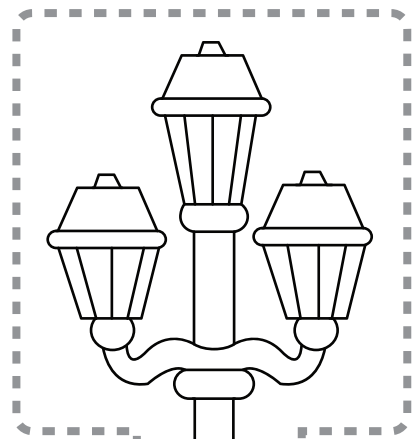

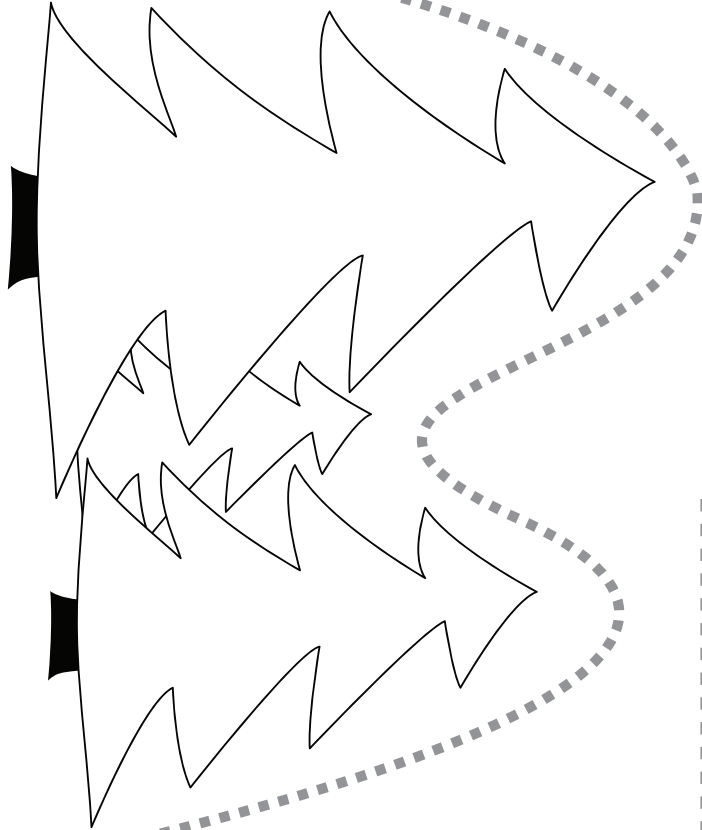

6 Place the skaters on top of the box and put a magnet beneath each one.

7 Slide the magnets around to see the skaters skate!
